# Advantages:

## School :

- The school can maintain a thorough database of every student in the school.
- This will give an instance access to any information as soon as it is needed.
- It helps regularly to keep in touch with the parents about their child's exam results, special functions, Holidays, attendance & his overall performance.

## Parent :

- Every parent is given a login id so that they can view their child's result and overall performance.
- Parents will regularly get the details about Parents Meeting, Results, Cultural function, fee, excursion & special events etc... as soon as it is announced.
- The parent will get to know about their child's absence to the class.
- If parents require any detailed information about their child, they can place a request through mobile or email and will be same.

# Advantages:

## Student:

- Students can view all there results, exam schedule, homework, tutorials etc....
- They can get the intimation about special events like sports, Holiday, cultural events & excursion as soon as it is announced.
